🎓 EDUCATION

Bachelor of Engineering (B.E.) – Computer Engineering

Vidyavardhini's College of Engineering and Technology, University of Mumbai – Vasai, Maharashtra

📅 Sept 2023 – Present

- CGPA: 9.43 / 10
- Specialization: Data Analytics
- Relevant Coursework: Data Structures, Database Management Systems, Statistics, Data Mining, Python Programming, Machine Learning

Higher Secondary Certificate (HSC) – Science

Vidyavardhini's College of Arts, Commerce and Science – Vasai, Maharashtra

📅 Aug 2021 – June 2023

- Percentage: 80%
- Stream Focus: Physics, Chemistry, Mathematics, Computer Science

Secondary School Certificate (SSC)

St. Anthony's Convent High School – Vasai, Maharashtra

📅 Aug 2008 – June 2021

- Percentage: 93.4%
- Top 5% of the graduating class

💼 EXPERIENCE

Data Analyst Intern | *Unified Mentor* | *Remote*

Jun 2025 – Present

- Currently analyzing structured and unstructured datasets to uncover key trends using Python, SQL, and Power BI.
- Performing data cleaning, feature engineering, and exploratory data analysis (EDA) on business performance data.
- Collaborating with the analytics team to create automated reports and dashboards, improving stakeholder reporting efficiency by 25%.
- Working on a predictive analytics project to forecast sales performance using regression techniques.

Power BI Intern | *Cognifyz Technologies* | *Remote – Nagpur, India*

Jun 2025 – Jul 2025

- Designed and deployed a Power BI dashboard for an Investment Preferences Survey with 1,000+ participants.
- Utilized DAX measures and Power Query to create dynamic visualizations segmented by age, risk level, and income group.
- Increased dashboard interactivity and usability through custom slicers and drill-through reports.
- Helped marketing team derive actionable insights, improving campaign targeting by 30%.

Data Analyst Intern | *AICTE – Edunet Foundation* | *Mumbai, India*

Nov 2024 – Dec 2024

- Analyzed 5,000+ customer transactions to extract consumer behavior insights using Pandas, NumPy, and Seaborn.
- Applied K-Means Clustering and Association Rules (Apriori) to improve product recommendations.
- Created business dashboards for internal use, reducing analysis time by 40%.
- Presented findings to stakeholders, influencing product bundling strategy.

Python Developer Intern | Octanet Tech Labs | Mumbai, India
Aug 2024 – Nov 2024

- Engineered a console-based ATM System with secure PIN login and full transaction functionalities (withdrawal, deposit, balance check).
- Applied file handling and modular Python programming, reducing code redundancy by 35%.
- Simulated a multi-user environment for real-time testing with over 100 dummy users.

 SKILLS SUMMARY

- 1. Programming & Scripting:**
Python (NumPy, Pandas, Matplotlib, Seaborn, PyTorch), C++, SQL (MySQL), HTML/CSS
- 2. Data Analytics & Visualization:**
Data Cleaning, Data Mining, Data Modeling, Statistical Analysis, Exploratory Data Analysis (EDA), Dashboarding, Business Reporting, Predictive Analytics
- 3. Business Intelligence Tools:**
Power BI, Tableau, MS Excel (Pivot Tables, VLOOKUP, Dashboards), Power Query
- 4. Database & Tools:**
SQL, MySQL, Git, GitHub, Kaggle, Jupyter Notebook, Google Colab
- 5. Soft Skills:**
Analytical Thinking, Public Speaking, Negotiation, Critical Thinking, Time Management, Team Collaboration, Problem Solving

 LEADERSHIP & RESPONSIBILITIES

Developer Coordinator
Microsoft Learn Student Club – University of Mumbai
 Aug 2024 – Present

- Spearheaded over 10+ technical workshops and coding sessions, boosting student participation by 70%.
- Coordinated seminars with 200+ attendees, ensuring smooth execution, high engagement, and post-event follow-ups.
- Organized a university-wide hackathon with 300+ participants, managing logistics, marketing, and mentor communication.
- Mentored 50+ student developers, encouraging collaboration and technical upskilling within the university tech ecosystem.

 CERTIFICATIONS

- **Data Science and Analytics – HP LIFE (Nov 2024)**
Covered foundational concepts in data science, data handling, analytics tools, and business application scenarios.
- **Git & GitHub Essentials Seminar – Microsoft Learn Student Club (Oct 2024)**
Hands-on exposure to version control, collaborative workflows, and GitHub CLI.
- **Java Programming Fundamentals – Infosys Springboard (Oct 2022)**
Introduced to object-oriented programming (OOP), control structures, and hands-on Java coding.
- **Data Analytics & Visualization Virtual Experience Program – Accenture (Aug 2024)**
Completed real-world business simulations using Excel and Power BI for client reporting and insights.
- **Excel Skills for Business Virtual Simulation – JPMorgan Chase & Co. (Aug 2024)**
Executed Excel-based financial data analysis, dashboards, pivot tables, and advanced functions.
- **SQL Bootcamp – Let’sUpgrade (Aug 2024)**
Mastered SELECT queries, joins, aggregations, and relational database schema management.
